# Frequently Asked Questions about State History Day Results

## **What if a National Qualifier cannot participate in the National Contest?**

If you are a National Qualifier, ranked 1st or 2nd, and cannot participate in the National Contest, please let Minnesota History Day know right away. The National Qualifier spot will be offered the entry ranked 3rd, then 4th and 5th as necessary.

## **I'm a National Qualifier. When will I get more information on the National Contest?**

National Qualifiers will be contacted via email by Minnesota History Day staff with more information about registering and participating in the National Contest. This information will be sent to the student and parent email address you used in the online registration system.

## **When will I get my comment forms from judges?**

Comment forms will be available through the zFairs portal within two weeks after the awards ceremony. Handwritten comment forms will be mailed back to schools within two weeks of the contest. Please download and save these materials before June 1 if you would like to keep them.

## **Are Honorable Mentions ranked?**

No. All entries who participated in the Final-Round of State but were not ranked 1-5 are awarded Honorable Mention. These entries were not ranked in the Final-Round.

## **How were the entries judged?**

Entries are judged based on the *National History Day Contest Rule Book*, which is [available online](#). The same criteria are used at all levels of competition. In general, the weight of the criteria is as follows:

- 80% Historical Quality
- 20% Clarity of Presentation
- Rules Compliance

## **Who were the judges?**

Judges are volunteers with an interest in history, education, and working with young people. They come from libraries, historical societies, colleges/universities, and other cultural and business organizations in Minnesota. Many of our judges have participated for multiple years and each judge receives training in advance of the event.

## **What if I have a concern about judging?**

"Judges must evaluate certain aspects of your entry that are objective (e.g., whether primary sources are used or whether the written material is grammatically correct and accurately spelled). Judges also must evaluate aspects of your entry that are subjective (e.g., analysis and conclusions about the historical data). Historians often reach different opinions about the significance of the same data. It is therefore crucial for you to base your interpretations and conclusions on solid research and to present your work well in your project and written materials."
